TYPE

Dining room table, total height 76cm

TABLETOP

31mm - Black MDF base, real veneer

Available in Oak (E) in the usual colors and in Walnut (N) only in N11.

Underside:

EXTENSION(S)

The solid extensions are made with a thickness of 20mm to reduce weight and facilitate handling.

The mechanism is made of galvanized steel with a central opening.

The black frame is composed of curved parts and metal crossbars that add stability to the table.

FEET

One table consists of two legs:

The foot is fixed with 5 metric screws type M8x30.

Base made of veneered plywood, always the same color as table top.

5 feet or casters (with extension) per foot.

Each foot has two weights (made of concrete) to provide the necessary stability. They are attached before packing, but can be dismantled by the customer.

SPECIAL FEATURES

Fastening element of the feet always black, screwed and glued.
